About this company:

For 55 years, Finken has been serving Central Minnesota with water treatment service and products for households and businesses. Finken started as a one-man water softener installation operation in 1961 in Melrose, MN. After multiple expansions and acquisitions over the years, Finken is now a five-store, 50-employee operation consisting of two sister companies, Finken Water Solutions and Finken Plumbing, Heating and Cooling.

We may have grown in many ways, but we're still family-owned and operated and we still treat every customer like our ONLY customer. Our team of talented, dedicated people are still true to our roots ~ bringing the best possible water plus plumbing, heating and cooling products and services to home and business owners in the communities of Melrose, St. Joseph, Litchfield and Brooklyn Park and everywhere in-between.
